Patient Account Services
952-401-8282

Dear Parents,

Please take some time to complete this form prior to consultation with your child's clinician at South Lake Pediatrics. If you have an opportunity to drop it off, return by mail, or fax it to us, your clinician will plan to review it prior to your appointment.

At the first consultation appointment, you may choose to have your child with you, or you may choose to come without your child so you can speak more freely. Do bring your child if he or she is 12 years or older unless you feel it would be best to visit alone first. The older child may provide some helpful observations in completing this form as well.

Sincerely,

Your clinician at South Lake Pediatrics
